Đặng Văn Quyết

Hi, I'm Levi Dang.

I have 6 years of experience as a Front-End Developer

📍 Hanoi, Vietnam

- 6+ years of experience in websites and mobile app development.
- Proficient in front-end development using frameworks and libraries such as React Native, ReactJS, Vue, Angular, Bootstrap, and JavaScript.
- Basic understanding of server-side CSS pre-processing platforms, such as LESS and SASS
- Translating from UI design tools such as PSD, Figma, and AdobeXD to website layout
- Hard-working, responsible, strong interpersonal and communication skills.
- Ability to work independently or as a team, under high pressure.
- Ready to learn new technology.

Certificate of Best Performance of the Year - 2021 Recognize individual contributions to the Delivery Unit 1.18		2021

Work Experience

Software Engineer
CMC Global

August 2020 - Present
Ha Noi, Viet Nam

As a Software Developer, I use Front-end libraries/frameworks like Reactjs, Vuejs, and Angular combined with UI Libraries (Antd, MUI, Taiwindcss, ...) to build Web/Mobile Applications.

Break tasks, Estimate and Assign tasks to members. Guide and support team members to complete tasks.

Project management on schedule, quality, and cost. Prevent and minimize possible risks

Software Engineer
KyberOsc

November 2016 - August 2020
Ha Noi, Viet Nam

As a Software Developer, my main job is translating from UI design tools such as PSD, Figma, and AdobeXD to website layouts. Use HTML, CSS, and Javascript (jQuery) to build a static website
